

1. Information about the indicator	
Goal	End poverty in all its forms everywhere
Task	By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions
The indicator	Proportion of population living below the national poverty line, by sex and age
2. Information about the organization	
Organization	Bureau of National Statistics of the Agency for Strategic Planning and Reforms of the Republic of Kazakhstan
3. Definitions and concepts	
Definition	The proportion (number) of the population with incomes below the subsistence level is the percentage of the population with incomes below the subsistence level.
Basic concepts:	Income used by consumption (DIP), minimum living wage (VPM), poverty level
Justification and interpretation	Poverty monitoring is important for country-specific development programs. National poverty lines are used to obtain more accurate estimates of poverty in accordance with the specific economic and social conditions of a country and are not intended for international comparison of poverty indicators.
4. Data sources and collection methods	
Data sources	Household household survey
collection methods	Interviewing correspondents using the forms D 003, D 004, D 008
Unit of measurement	percent
Periodicity	Quarterly, annually
5. Calculation method and other methodological considerations	
Calculation method:	The ratio of the number of the population with income below the minimum living wage to the total number of the population in percentage terms and the application of the income scale
Comments and restrictions:	
6. Data availability and disaggregation	
Data availability and gaps:	The data is available on the website of the Bureau of National Statistics of the Agency for Strategic Planning and Reforms of the Republic of Kazakhstan.
The level of disaggregation:	Data is disaggregated by region and by relevance on a quarterly basis, by gender and by age group on an annual basis

7. Comparability with international data/standards
